

If you are young, you naturally appear so. If you are old, why appear so? Ayer's Hair Vigor will surely restore color to your gray hair, and will give to it all the wealth and gloss of early life. It will stop falling of the hair also; and will keep the scalp clean and healthy, entirely free from dandruff.

Ayer's Hair Vigor

There's a pleasure in offering to you such a preparation; while you will certainly feel a sense of security in using something that others have used for half a century. Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

CALL FOR PRIMARIES.

HEADQUARTERS
REPUBLICAN DISTRICT COMMITTEE
OF THE
FIRST REPRESENTATIVE DISTRICT OF
THE TERRITORY OF HAWAII,
HILO, HAWAII, June 26, 1902.

To the Precinct Clubs and to all Republicans of the First Representative District:

A call is hereby made for a primary election to be held in each precinct on **SATURDAY, THE SECOND DAY OF AUGUST, A. D. 1902**, between the hours of 2 and 8 o'clock p. m., when District Committeemen for the ensuing two years and Delegates to the Territorial Convention are to be voted upon and elected, in accordance with the following apportionment:

Precinct	Committee	Delegates
First Precinct (Pana)	1	1
Second Precinct (Hilo)	9	4
Third Precinct (Papaikou)	1	1
Fourth Precinct (Honouliuli)	1	1
Fifth Precinct (Laupahoehoe)	2	1
Sixth Precinct (Kukui)	1	1
Seventh Precinct (Honokaa)	1	1
Eighth Precinct (Kukuihaele)	1	1
Ninth Precinct (Olua)	4	2

Each Precinct Club to provide polling places for the primary within its own precinct. THOS. C. RIDGWAY, Chairman. E. E. RICHARDS, Secretary.

CUBAN CRISIS.

Planters of That Island Are Face to Face With Ruin.

Havana, June 29.—The Diario de la Marina says that nobody who knows the economic situation in Cuba can be surprised by the growing agitation among the planters, who are face to face with ruin.

It cites the following case, the figures being taken from the books of one of the leading planters, of the sale of 10,000 sacks of centrifugal sugar, polarizing 96.5 degrees, the gross weight of which was 3,230,000 pounds. The tare was 30,000 pounds, leaving 3,200,000 pounds of sugar, worth, at three cents a pound, \$96,000 in New York. Add to this \$1,000 extra allowance for the high polarization and the value was brought up to \$97,000. The insurance was \$250, freight, \$2,500; minor expenses, \$200; warehouse dues, \$400; receiving and delivery charges, \$400; fire insurance, \$140; lighterage, \$1,200; weighing and calculating tare, \$323; duties, \$53,920; brokerage, \$242.50; commission, \$970; making the total expenses \$60,605 and leaving \$36,394.50, or \$3.63 per sack, or, say, \$3.99 Spanish.

The cost per sack is as follows: \$3.33 for 3,625 pounds of cane; grinding, 90 cents; transport and warehouse dues, 51 cents, a total of \$4.74, leaving a loss of 75 cents Spanish gold per sack.

Therefore, for every \$100,000 representing the work of the cultivator and the capital of the planter more than half goes into the Treasury at Washington. The paper says that some call this liberty, independence and sovereignty, but others call it the harshest kind of economic dependence.

At a large meeting of negroes today Senor Rendón denied that the negroes wanted to make trouble. All they wanted was justice. All Cubans, he added, should unite to offset the Americans. Senor Carreras said the Americans needed Porto Rico, the Philippines, Hawaii and Cuba to send their negroes there. If the Government showed incapacity to deal fairly with the races the negroes would show them at the next election who were the masters.

Senor Don said the President sent Senor Bravo to Santiago to talk with the negroes regarding a supposed uprising there, but he learned nothing. The uprising of the negroes was perfectly peaceful. Those who were trying to deny them their rights pointed to them as disturbers of the peace. If the Government could not deal with the question of the races the republic would be a failure.

Gen. Sanchez said that the police of Havana were composed of whites, yet more stealing was done by the police than anybody else. Honest negroes could not get admittance to the force.

Gualberto Gomez said that intervention had changed the natural course of evolution. He compared President Palma with the Spanish General Callejas. The latter, he said, was more liberal and democratic than Senor Palma, who was President of a democratic republic.

Oahu Stops Dividends.

Honolulu, July 19.—The payment of dividends of the Oahu Sugar Co. has been discontinued until further notice by action of the Board of Directors, this step being directly due to the recent reports of the falling price of sugar. This price now means a reduction of \$12 a ton from that secured for the crop last year, and a decrease of \$23 from the price of two years ago.

The reports made by the board showed that the permanent improvement account has been charged with \$300,000 this year and the falling off in receipts has made it impossible for the company to pay bills and keep up dividends, and the latter were shut off so that the debt of the plantation might not be piled up higher.

The crop this year will be in the neighborhood of 28,000 tons. There is still one great field to harvest and this is a conservative estimate. The estimate of Manager Ahrens for the year was 27,000 tons, but owing to increased yield some of the plantation men thought there would be 30,000. This has now been abandoned.

FISHERY TEST CASES.

Substance of Appeals to the Supreme Court.

Honolulu, July 19.—Hatch & Silliman have filed bills of exceptions in the two test cases of fishery rights, being those of S. M. Damon and the Bishop Estate respectively. The difference between the cases is that the fishing right is mentioned in the royal patent under which Mr. Damon claims, while such right is not referred to in the royal patent back of the Bishop claims.

In Mr. Damon's case the exception is simply to Judge Humphreys' granting a nonsuit to the defendant on the ground, first, that no title to the fishery claimed passed to the plaintiff's grantors by virtue of the royal patent specified; and, secondly, that no vested right in a sea fishery as against the Territory of Hawaii could have been acquired by virtue of the laws of the Kingdom of Hawaii respecting fisheries, and that upon the repeal of said laws respecting fisheries by the Organic Act the rights of plaintiff in said sea fishery became terminated.

In the case of the Bishop Estate Trustees, exception is taken to the admission as evidence of the Land Commission award antedating the royal patent on the motion of defendant for the purpose of showing that no right of sea fishery as appurtenant to the land of Waialae-iki or otherwise was claimed by the awardee before the Board of Land Commissioners. The plaintiffs objected to the evidence on the ground, partly, that the royal patent was the final act in regard to the title.

Further, exception is taken to the adverse ruling on the plaintiffs' claim of vested rights under the immemorial custom and the laws of the Kingdom of Hawaii, saying that for a period of sixty years they and those under whom they claim title have been in possession of the sea fishery of Waialae-iki; that such possession has been continuous, exclusive and notorious for said period, and that the fishery right in question consisted of setting apart each year one given variety of fish for themselves from all caught within the boundaries of the fishery specified in their complaint.

Other exceptions refer to the same ruling as was made in the Damon case, namely, that the ancient custom and law did not hold, but that the private rights in sea fisheries were terminated by the Organic Act.

Cable End at Young's.

Honolulu, July 19.—Officers of the Commercial Pacific Cable Company will be opened October 1 in store room No. 3, Young building. This was decided yesterday when the lease for the room was concluded between S. S. Dickenson, representing the company, and Mr. Young, the proprietor of the building.

The room selected for the local offices of the cable is most centrally located and is so close to King street as to be practically upon that thoroughfare. The depth of it is sufficient to permit the erection within it of private offices for the manager, an apartment for the business staff, the operating room and the battery room.

Plans will be prepared at once for the construction of the piers or pedestals which will support the instruments, which will serve as the receiving and sending ends of the sea cable. There will be such arrangements made as will provide for the working of the cable clear through to Manila, when the farther lengths have been laid. The machines are so sensitive that street traffic affects them unless set upon the most solid foundation. Work upon finishing the room and fitting it will go on at once.

Hawaiian to Yale.

Honolulu, July 19.—Abraham G. Kaulukou, son of Judge John Kaulukou and clerk of Judge Gear's court, will leave early in September for New Haven, where he will enter Yale Law School. To the young Hawaiian has been awarded the scholarship arranged by Yale men of the city, and he will be given the full course of the institution.
